Spring Break-Up Causes New M-72 Detour

A spring break-up on the M-72 detour in Crawford County has resulted in designation of a new detour route, State Highway Commissioner John C. Mackie announced recently.

The new detour runs from the M-72 junction at Grayling south on US-27 to its junction with M-76, then east along M-76 and M-144, picking up the north-south county road which passes through the pole vault and rejoins M-72 north of town.

Reconstruction work on M-72 necessitated the original detour.

Yearly Cancer Crusade Now Underway

"An estimated one out of four of those of us now living in Crawford County will develop cancer at some time during our lives, and two out of three will die of the disease," present rates continue.

These facts and other statistical data about cancer and Crawford County were made public today by Mrs. E. R. Burns, local chairman of the 1958 Cancer Crusade.

The annual fund-raising and educational drive of the American Cancer Society began Tuesday, April 1, Crawford County will raise \$750,000 of the \$300,000,000 which is the national goal of the Crusade.

"Now is the right time to issue a statistical report about cancer in this community. What is better designed to bring home the fact that cancer is the concern of each and every one of us?" Mrs. Burns said.

Here in Crawford County we have a population of about 4,500. Based on that population, the ACS report estimates that 12 cancer patients will be new cases, cancers diagnosed for the first time. About four residents of this community will be saved from cancer during 1958. About six will die of the disease.

These are hard and predictable facts. But there are hopeful facts, too. And it is within our power to add to the credit side of the cancer ledger. You will notice from the figures quoted that one in every three cancer patients is now being saved. This is a lot better than the one in four a few years ago. But it can be made better still. Because it is also a hard fact that one in every two cancer patients can be saved. We actually have it within our power to reduce the number of cancer deaths here in Crawford County by having a checkup every year and by watching out for the danger signals of cancer between checkups.

Just remember that if cancer strikes you, you have a 50-50 chance—provided the cancer can be diagnosed early enough and properly treated.

And here is something that will help us remember: Just walk along your street in this area and count the houses and pause to think that cancer will strike in two out of three, not necessarily this week or this year, but some time.

That is a sobering thought. One that should inspire generous giving to the American Cancer Society which is spearheading the fight against cancer. Money is essential to carry on the intensive research which may one day result in the control of cancer, given time—and money.

Pictured in the photo to the left are: Claude Cardinal, 69, at left of picture and Jay Wales, 72, at right, who are cutting pulpwood from the H. B. Smith Jr., property downriver this winter. The photo at the right shows pulpwood logs ready for cutting into lengths. The cutting is being done to open up the area and to provide deer food. Note the lack of brush and limbs in a well cleared up area. These two men have proven that age is no handicap to making a good living from the woodlands of Crawford County.

Economy Of Area Boosted By Pulpwood

A million dollars' worth of pulpwood from eleven northeastern lower peninsula counties was delivered to American Box Board Company's Filer City pulp and paperboard mill during 1957, according to figures just released by Ivan M. Owen of the company's regional woods office at Mio.

Aspen accounted for 51,887 cords of the 58,167 cord total delivery while pine accounted for 6,280 cords, Owen said. Counties included in the report in relation to pulpwood production for the mill are: Oscoda (17,819 cords), Montmorency (9,575 cords), Alcona (8,367 cords), Crawford (6,583 cords), Roscommon (6,032 cords), Emmet (5,794 cords), Isosco (2,045 cords), Presque Isle (1,764 cords), Alpena (265 cords), Arenac (21 cords), Otsego (13 cords).

In addition to the hundreds of wood workers and truckers depending upon the lumber harvest for income, many private landowners found that they could harvest timber and game in harmony, Owen said. He pointed to the company's forest and wildlife work on thousands of acres of hunting club land as an example. "Over the five year period since 1952, deliveries from this area to our mill increased fifteen-fold," Mr. Owen said. "Deliveries from the same area in 1952 totalled only 3,838 cords." He pointed out that the greatly increased wood activity for his field office during 1958, especially in pine pulpwood procurement, as the company's new bleached kraft pulp and paperboard mill in Filer City is scheduled for operation early in 1958. Bleached kraft requires a high percentage of pine pulpwood.

Tradition Pays Off . . .

It's a good old American custom. We refer to the friends and neighbors get together to tackle their jobs.

We've done it from the beginning of our history — in the first stockade built by the first settlers. Jart-raising, corn-huskings, PTA meetings, church fairs and all the other get-togethers to achieve common goals — they're in the same fine tradition.

And so are the victories that have been won against ease during this century of medical know-how.

We are justly proud of our scientists who have vanquished so many one-time killers since 1900 and added years to our life expectancy. But let's be proud of share in this achievement, because we are the ones who gave our scientists the tools they needed for their research projects.

The defeat of disease since the turn of the century is evidence of what we can accomplish by cooperative and voluntary effort, voluntary agencies working with volunteers and supported by voluntary contributions. Here in America we give — time or money — because we want to.

And it pays off.

Fresh in memory is the fight against polio. The American people fought and paid for the victory against it. We contributed almost half a billion dollars over fifteen years. That's a lot of money, but can anyone doubt it was worth the return of the Salk Vaccine? Let's go back a few years and remember diabetes and

SHINING THROUGH THE GLOOM

tuberculosis and typhoid and pneumonia — just to mention a few other diseases that no longer take a heavy toll of mankind.

And then let's give sober thought to the fact that April is Cancer Control Month, and that cancer is the number two disease killer in the United States today!

The American Cancer Society believes science can and will find the answer to cancer, too. Only two things are needed: Time and the tools for research.

Let's keep this in mind when we hear a knock and open the door to a Cancer Crusader. The national goal is \$30,000,000.

And multiply that Crusader by two million! That's the number of ACS volunteers who will visit their friends and neighbors to ask them to "fight cancer with a check-up and a check."

Friends and neighbors — there is the cue to our American way for getting things done!

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE
FILES OF THE AVALANCHE OF 23 YEARS AGO

April 4, 1935

Michigan voters showed their confidence in the Republican party when it again voted itself into that party column by an overwhelming majority. State offices were filled by an average majority of 2 to 1. In the county Samuel Smith, democratic candidate for township clerk, had a comfortable margin over Carl Sorenson, republican candidate. P. W. Christenson, democrat, defeated Dan Sabuntz by three votes for the office of board of review member. All of the present incumbents of the office of supervisor in the several townships were reelected. There were a few cases of very close contests. In Frederic township George Horton, republican, was victor over Lyle Dunckley by a margin of six votes. In Maple Forest township Alfred Hummel, non-partisan candidate, had a close call when Chester Lezon missed the tieing vote by one. The entire republican ticket was defeated in Beaver Creek by the Citizens party candidates. Sydney Dyer was reelected supervisor in South Branch township by defeating Henry F. Scott. Ernest P. Richardson was a sticker candidate for that office. Edgar Gaid of Lovells was opposed by Gideon Kibler, but won by a fair margin.

Friday, April 19, will be cleanup day all along the 230 mile

stretch of Taft highway running from St. Johns to Cheboygan. This date has been set by the organizers of the recently organized US-27 Beautification association, announces President C. C. Barnes, who is registrar at Central State Teachers College. "Paint your mailbox, your buildings if you can, bury the refuse, tear down old signs, slick everything up, and plant flowers, vines and tree seedlings at that time," advises Mr. Barnes. Help and advice are coming from all sides in the campaign to make Taft highway "The road beautiful." Dan Henry, Michigan forester for Clinton, Isabella and Gratiot counties, urges each township to consider donating land for a tourist rest camp. Signs, tables, stoves, refuse barrels and maintenance will all be contributed by the state highway department for such roadside parks, points out Mr. Henry. William Krell, Clare county resident, urges the planting of fruit trees whose produce would be free to wayfarers. The US-27 association has also decided to stimulate the planting of petunias and zinnias to further the transformation into a continuous bower of beauty. To help in the fulfillment of the slogan coined for the association "Make US-27 the Main Street of Michigan" clubs all along the route are preparing to get behind "cleanup day" with offers of prizes to property owners who make the most improvement possible and to those whose property looks the best.

The following item was taken from the Pontiac Daily, following a reading of her poems by Mrs. Mollie Michelson before the Tuesday Musical club at Pontiac. "Since Mrs. Mollie Michelson read poems of her own last year on a similar program presented by the club, many have waited to hear her again. MORE NOW BEING SAVED

A few years ago only one in
 every four Americans who had
 cancer was saved. Today one in
 three is being saved, the Ameri-
 can Cancer Society says. This gain
 is due to early detection, earlier
 and better treatment, greater
 awareness by the public of can-
 cer's danger signals, and an in-
 crease in the practice of annual
 health checkups.

Retail Spending Remains High Locally

(Special to The Avalanche)

New York, March 5. A comprehensive survey of consumer buying in the nation's retail stores in the twelve months preceding the business setback shows that the Crawford County market was a vigorous one in the period. With local incomes at a high level, consumers spent freely for goods and services. The buying surge was in evidence, for the most part, in stores selling non-durables, which attracted the biggest part of the household dollar.

The retail spending picture is revealed in the annual report of the Standard Rate & Data Service for the fiscal year ending July 1, 1957. In Crawford County stores, it shows, consumer spending reached a total of \$5,337,000 in the year. Not all of this retail strength can be credited, however, to increased buying on the part of the public. The creeping rise in the cost of living had much to do with boosting the dollar volume.

Nevertheless, the higher costs were more than counterbalanced by the better incomes that prevailed. Locally, per household, the amount available for spending, after taxes, averaged \$2,971, an increase over the previous year's \$2,877.

How did Crawford County residents apportion their expenditures in the year? The answer is to be seen in the gross volume reported for the various kinds of retail business. Included are: Food stores, whose sales came to \$1,205,000, equivalent to 23 per cent of the total retail outlay. Places selling automobiles and other automotive equipment, \$1,487,000, equal to 28 per cent. Stores selling general merchandise, \$1,338,000, amounting to 3 per cent.

Apparel stores, \$222,000, or 4 per cent. Home furnishings establishments, \$100,000, equivalent to nearly 2 per cent.

The consuming power proved to be the bulwark of the economy, continuing to buy at a high level despite the talk of a forthcoming recession. Even now, in the midst of the decline, the confidence persists that a resumption of good times cannot be too far off. This is evidenced by January retail sales volume, which was four per cent above that of January, 1957.

Mr. and Mrs. James Brown visited his mother, Mrs. Harrison Brown, from Saturday to Wednesday of last week in Detroit. In their absence the children stayed with their grandparents, the Dr. C. G. Clipperts.

William Sorenson was in Onaway last Thursday on business. Orders are now being taken for Cemetery markers and monuments to be erected for Memorial Day. Contact Carl Hanson, Grayling, Michigan.

Mrs. Leo Jorgensen was in West Branch March 14th, where she attended the funeral of Mrs. Erna Carroll Wheeler, 66, at the West Branch Lutheran church. Services were under the auspices of the West Branch American Legion Post, of which Mrs. Wheeler was a member. Mrs. Wheeler passed away March 11th after a two-month illness. She had been a World War I army nurse, serving years in Great Britain, which had been under civil service, which took her to every state in the Union, and Panama. She was a Children's Fund nurse in Crawford County in the early 1930's, at which time her son, a band, Mr. and Mrs. Dell Weir, lived in Grayling also. She had been making her home with her mother, Mrs. Carroll, in West Branch, until entering Veterans' Administration Hospital in Saginaw.

John Bruun was in Lansing from Wednesday until Saturday on business. The next Annual Township Meeting of the Electors of the Township of Grayling will be held on Saturday, April 5th, 1958, at the Township Hall, beginning at 1:00 p. m., to transact such business as is usually transacted at Township meetings, by viva voce vote.

It has been a very rough time for her. She is in good spirits now and can walk a few steps so has hopes of getting back to Michigan.
